

More Space. More Productivity.

Micro MaxCell

The MaxCell Group now offers a range of Micro MaxCell products for use in 1.0" to 2.0" ID conduits. This new product is available in 3-Cell, 2-Cell, and single cell configurations.

Features & Advantages:

- Designed for use in FTTH applications – underground as well as aerial duct applications
- Ideal for use in MDU applications where frequent entry in conduit is required
- Enables overlay of cables in occupied conduits
- Reduces or eliminates number of conduits required in new construction
- No special blowing equipment is required
- Features standard 1250lb sequentially printed, color-coded pull tapes
- Pre-lubed for easier installation

Min. Conduit ID	Suggested Product	Max # of Packs	Max # of Cables	Maximum Cable Diameter per Cell	Rec. Pull Length	Max. Pull Length
1.25"	MXCM3303BK 3-Cell	1	3	.40"	800'	1500"
1.25"	MXCM3302BK 2-Cell	1	2	.40"	800'	1500"
1.0"	MXCM3301BK 1-Cell	1	1	.40"	800'	1500"
